Contraception Essentials in Primary Care (VIC/TAS)

Empowering primary care providers to discuss the benefits of LARC

Session 1: Tuesday, 22 August 2023, 6:30pm – 9:00pm (AEST)
Session 2: Wednesday, 23 August 2023, 6:30pm – 8:30pm (AEST)

Through case studies, presentations, group discussion and online learning the Contraception Essentials in Primary Care course will increase primary care providers' knowledge and confidence in discussing the benefits of Long-Acting Reversible Contraception (LARC) to reduce the incidence of unintended pregnancy amongst their patient population. This course will be particularly relevant for, but not limited to, general practitioners, nurse practitioners, and practice nurses working in primary care settings.

This course will be delivered across different dates and locations in 2023. [Click here](#) or scan the QR code below to express your interest and we will contact you when the course becomes available in your jurisdiction.

Course outcomes

It is expected that after completing the course, attendees will be able to:

- Discuss available contraceptive methods' safety, efficacy, and side effects.
- Implement a contraception consultation framework that demonstrates patient-centred shared decision-making.
- Outline common issues and side effects that arise in contraceptive care.
- Propose strategies for breaking down barriers to contraception access.

Target Audience

GPs, Nurses, Nurse Practitioners, Midwives and Practice Nurses working in primary care settings.

Course Accreditation/Endorsement
