Gippsland PHN, in partnership with the National Asthma Council of Australia, is offering this webinar to general practitioners and health professionals.

The one-hour session has a focus on springtime asthma and allergic rhinitis (AR), how to manage both conditions using the latest evidence-based guidelines but critically also identifies those at greater risk of thunderstorm asthma and guidelines for management.

The Asthma in Spring webinar covers important learnings including:

- the association between allergic rhinitis and asthma
- treatment guidelines for allergic rhinitis
- those at greater risk of thunderstorm asthma and the guidelines of management
- the importance of written asthma action plans and asthma first aid in thunderstorm asthma season.

Accreditation:

This education is a CPD Activity under the RACGP CPD Program.

Activity Id: 214719

This event has been approved for PDP points with ACCRM

Activity Number: 27442
