

For Health Care Providers

Care At Home™ DesktopPRO View PROMs

The screenshot shows the Care at Home DesktopPRO interface. On the left is a dark blue sidebar with navigation icons: Alerts (with a yellow badge '2'), Enroll, Members (highlighted with a blue box and a '1' in a circle), Care Plan, Video Consult, Filters, and Settings. A vertical index of letters A-Z is next to the Members icon, with the letter 'J' highlighted (labeled with a '2' in a circle). The main content area displays the patient profile for Jane Johnson (DOB: 01/01/1960, Email: skooner+hfht2@lifeguardmobile.com, Phone: 12345678, Status: Active). Below the profile are tabs for PROMs, Medications, and Status. The PROMs tab is active, showing 'Orgs' as Henry Ford Health- Cancer (TEST) and 'Plans' as HFH HNC Chemoradiation Treatment. A date range selector shows '30 Days previous to 2024/10/22'. Below this is a 'SYMPTOMS' section with a 'Daily Symptom Screening' table. The table has columns for September (23-30) and October (1-22). Rows include ANXIOUS, CHILLS, DIFFICULTY SWALLOWING, DRY MOUTH, FATIGUE, GENERAL PAIN, and MOUTH/THROAT SORES. Each cell contains a colored circle: red for Missed, green for None, orange for Other, and red with a white exclamation mark for Alert. A blue box with a '3' in a circle highlights the symptom screening table.
