For Health Care Providers

Five Steps to Success in the Care At Home Program:

- 1** **Enroll** all patients to Care At Home
- 2** **Provide** each patient and/or proxy with Care At Home QuickStart
- 3** **Emphasize** the importance of patient participation for better health outcomes
- 4** **Review** longitudinal data (PROMs) at every patient visit
- 5** **Encourage** participation in the Care At Home Programme if the patient has not **ACTIVELY** participated
