

THE EDUCATION HUB AND
RCH GENDER SERVICE
PRESENT

GROWING WITH PRIDE

PROTECTING THE RIGHTS AND HEALTH OF TRANS KIDS

Trans children and adolescents thrive when they are supported by their family, their community, the health system and government.

The RCH Gender Service and The Education Hub at The Royal Children's Hospital are proud to host a day of learning, reflection and collaboration across sectors, as we tackle the challenges of an increasingly polarised world.

When?

Thursday, 9th October 2025
9:00am-4:30pm AEDT

Where?

The Royal Children's Hospital
50 Flemington Rd, Parkville, VIC

Virtual and onsite attendance available

This session will be recorded

What?

We invite professionals, parents and carers, as well as trans young people to attend, either in-person or online. We will listen to leaders from the health sector, law, ethics, human rights, research and community organisations. Most importantly, we will hear from trans young people and their families.

All children have the right to the highest attainable standard of health. Let's come together to uphold this right for trans kids.
