

## MyMedicare

### Patient messaging for general practice reception staff

- MyMedicare registration is voluntary and free.
- You can still be a patient at this practice without being registered.
- If you do register at this practice, you may be entitled to longer phone or video (telehealth) consultations that are funded by Medicare.
- Registration will also help the practice to deliver health care services that better meets your needs, including services provided by practice nurses and allied health professionals.
- You don't have to see a practice nurse or allied health professional if you would prefer to see your GP.
- You can still see another GP at another practice should you wish but you won't be able to access the longer (Medicare-funded) telehealth consultations.
- We can provide you with a form to register with a GP at this practice.
- Patient registration will be available from 1 October 2023 to Australians with a Medicare card or Department of Veterans' Affairs (DVA) Veteran Card. Patients will be able to register at this practice or online through their Medicare Online Account.
