

Dementia and end-of-life care in regional and remote Victoria: Care planning in General Practice

Western Victoria, Murray and Gippsland PHNs are pleased to invite primary healthcare professionals to attend this online event.

This webinar will cover end of life planning for people living with dementia, including the role of general practice, billing optimisation and consultations.

Date: Tuesday 21 February, 2023

Time: 6:30pm – 8:00pm

Presenter: Dr Claire Hepper,
General Practitioner

Open to

General Practitioners, GP Registrars, Practice Nurses, Practice Managers, Allied Health, Practice Staff, Specialists

CPD

RACGP/ACRRM Education Activity hours have been applied for. Other health professionals may self-report hours.

Learning Outcomes

- Discuss end of life care planning, in particular the role of General Practice in improving the end of life care journey of people living with dementia
- Implement advance care planning discussions in general practice consultations, enhancing
- care coordination and management of palliative care needs
- Outline billing optimisation strategies for end-of-life planning and palliative care focused general practice consultations
