### Workshop outline

Investing the time to further understand Risk Management is critical to ensuring good Practice Management.

Join us for this informative session presented by AGPAL, this 1 hour session will support you as a Practice Manager and a leader in your organisation, to understand and implement meaningful Risk Management improvements in your General Practice. A consultant with extensive expertise on Risk Management will deliver the session making this a valuable addition to further enhancing your understanding in this area.

There will be an opportunity for question time at the conclusion of the session, to ensure that responses can be tailored to suit your individual needs.
