It's been another big year full of demands and challenges - but also opportunities. This session brings a lighter focus as we round out the year.

The session will explore key questions to help you capture the opportunities from the year that was and identify the learnings, practices and processes that you will:

- Take with you into 2023
- Tweak or refine, or
- Turf

The session will also help you recognise and celebrate your achievements, laugh and explore ways to inject fun and laughter into your workplace and find a sense of optimism for the year ahead.

Essentially this session is about providing you with clear actionable strategies to help you Reset, Recharge and Recover.
