

STI Essentials for Primary Care (Webinar)

Victoria is experiencing increased rates of syphilis, gonorrhoea and chlamydia, and inclusive STI management as part of routine everyday primary health care practice is key to bringing these epidemics under control. This webinar will provide a comprehensive overview of the diagnosis and treatment of the most common STIs.

Kirby Institute, UNSW 2018

This workshop has been funded by DHHS as a tailored approach to Community Health workforce development for meeting the needs of populations at risk of STIs.
