## TGD Health for GPs and Prescribing Clinicians Training Course

### Overview:

A free course (fully funded by the Victorian Department of Health), CPD-approved by ACRRM & RACGP, designed for General Practitioners and prescribing clinicians in Victoria.

The program is delivered through interactive, case-based learning, co-facilitated by leading GPs and Trans and Gender Diverse (TGD) health professionals.

### Purpose of the Course:

The course equips clinicians with the knowledge, skills, and confidence to provide safe, evidence-based, and affirming healthcare to TGD patients. It strengthens clinical practice while supporting system-wide improvements in access and inclusion.

### Key Topics Covered:

- Gender Affirming Hormone Therapy
- Affirmative Practice & Clinical Logistics
- Surgical Options and Referral Pathways
- Mental Health Referral and Support
- Building sustainable Communities of Practice

### Course Structure:

- Online, 6:30 - 8:30pm
- One session per week, across three consecutive weeks

### Post-Course Opportunities:

Attend a half-day or full-day clinical observership at the THH Equinox Clinic.  
Access tailored TGD training for their own clinic, provided by Thorne Harbour Health.
